## **DETAILED ACTION**

### **Status of an RCE application**

1. A request for continued examination (RCE) under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after the final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicants' submission filed on 09/06/06 has been entered.

### **Response to Amendment**

2. Applicants' amendment and remarks, filed September 06, 2006, has been made of record and entered. Claims 1-2 have been amended.

Claims 1-4 are currently pending.

### **Status of Withdrawn Claim(s)**

3. Claims 3 & 4 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention(s), there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on December 01, 2005.

### **Claim Rejections - 35 USC § 112 (Second Paragraph)**

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 1754

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, the phrase “wherein the complex oxide is formed by co-precipitation both the catalytic-activity and carrier-forming constituents on a surface of the porous carrier body from an impregnating solution” is unclear and confusing. It would appear that the co-precipitation of both the catalytic-activity and carrier-forming constituents on a surface of the porous carrier body would result in a catalyst, and not a complex oxide. Unless the porous carrier body in line 10 of claim 1 is differ from the porous carrier body recited in line 3-4 of claim 1. Thus, renders the claim vague and indefinite.

#### **Response to Applicants' Arguments**

6. Applicants' response filed on September 06, 2006 has been fully considered, but not deemed persuasive in view of the new ground of rejection(s) and/or objection(s) above.

#### **Conclusion**

7. Claims 1-4 are pending. Claims 1-2 are rejected. Claims 3-4 remain withdrawn due to nonelected (distinct) invention(s). No claims are allowed.
